## EDUCATION

---

Sinhgad Institutes  
**Bachelor of Technology** in Computer Science and Engineering.

*Maharashtra, India*  
*2019 – 2023*

## EXPERIENCE

---

Trianz Digital Consulting PVT. LTD  
**Software Engineer**

*Hyderabad, India*  
*2023, Sep – Present*

- While working with current organization I am consulting top U.S.-based Insurance & Mutual Fund Company.
- Designed and optimized complex SQL queries, stored procedures, functions, SQL agent jobs, and SSMS Packages for data processing and reporting. Automated routine data validation and ETL processes, reducing manual effort and increasing accuracy.
- Developed and maintained enterprise-level applications using Dotnet. Implemented document management and workflow solutions using **OnBase by Hyland**, streamlining business processes and reducing manual paperwork.
- Worked on .NET microservices, RESTful APIs, and database development.
- Built scalable backend systems and ensured efficient data handling.
- Collaborated with teams for smooth integration and deployment.

## PROJECTS

---

**e-Commerce Shopping Web Application**

*2023, March–2023, May*

- We have created the e-Commerce web application for the day to day shopping. This web application was similar to Flipkart and Amazon.
- **Tools:** Dot Net MVC, Dotnet Web API, SQL server, HTML, JavaScript, Bootstrap, CSS.
